

# MED 1300

## Medical Grade Air Purifier

Our medical-grade air purifiers filter and disinfect air at the highest efficacy levels of clinical-grade quality. They filter and inactivate viruses, bacteria, fine particles, and fungi from ambient air in enclosed spaces, filtering particles as small as 0.1µm. This is achieved through combining the advantages of specialist HEPA filters, UV-C disinfection technology and microbe inactivating materials. Together, they create what is arguably the best medical-grade air purifiers available.

### Key benefits

- ✓ Purifies and disinfects air up to 99.999% in room sizes up to 260m<sup>3</sup>
- ✓ Safe to use in occupied areas – all UV-C rays are entirely concealed
- ✓ Compact high performance mobile units
- ✓ Designed to run 24/7
- ✓ Can help to remove inhalation allergies
- ✓ Intelligent filter monitoring

With its variable airflows, the MED1300 is ideal for use in the following areas:

Hospitals

Pharmacies

Clinics

Laboratories

Care home settings

Offices

Universities, colleges

Schools

### Technical characteristics

Dimensions (mm)	485 x 485 x 1020
Weight	43kg
Maximum noise level	59dB(A)

### Verifications

- ✓ CE
- ✓ ISO 15858
- ✓ ISO 16890 -1:2016
- ✓ EN1822-1:2019
