Coolnomix Reduction & Savings Guarantee

We guarantee that Coolnomix will reduce energy consumption and carbon emissions by a minimum of between 15% and 20% per year on installed AC & Refrigeration units as long as the following operational criteria are met:-

- AC & refrigeration units must be in good working order
- System must have a delta T of 7C minimum
- Coolnomix cannot be tampered with by any unauthorised suppliers/service companies
- Temperature cannot be changed. AC must be in cooling mode for set number of months
- AC savings based on cooling and run hours

To deliver a savings guarantee we require an fGAS register detailing the following information:

- Running hours of unit
- Make and model
- Cost of energy per kWh
- Size of unit
- If a VRF system how many internal units are on it?
