

The Future of Rooftop Solar

Engineered for UK roofs. Designed for fast, familiar installation

Our solar roof tiles are designed to blend seamlessly with standard concrete tiles, maintaining the aesthetic of your project while generating clean energy.

Integrated Solar Tiles

The Next Generation of Integrated Solar

IBC Technology

Solartyle's IBC (Interdigitated Back Contact) technology maximises energy efficiency and ensures a seamless, aesthetic solar solution for your roof.

Solartyle integrates directly with standard concrete tiles to preserve rooflines and deliver clean energy, all while meeting the design expectations of planners and clients.

- ✓ Cover more roof space for a higher yield
- ✓ Rapid installation compared to any other solar system
- ✓ Full roof system available with 15-year insurance backed warranty
- ✓ Design flexibility for complex and difficult roofs
- ✓ Comparable in costs with leading in-roof systems
- ✓ MCS 005 and 010 certified and B-Roof T4 fire tested
- ✓ No extra flashings or battening required, system installs like a roof tile
- ✓ Blends seamlessly into the roof for an uninterrupted tile appearance
